THOMAS DUNCAN
Supervising Building Inspector

TOWN OF TONAWANDA

BUILDING DEPARTMENT

COVID-19 Pandemic Dye Test Restrictions To Real-Estate Agents and Home Owners:

Dye Tests:

In the interest of COVID-19 pandemic restrictions and to minimize mutual exposure to individuals, Dye Test appointments MUST be co-coordinated by the listing real-estate agent or property owner and hosted by ONLY ONE representative, thereof.

Persons requesting Dye tests of occupied residential properties are to schedule an appointment when buildings are vacant or occupants must be isolated as far away from Dye Test work area as possible (behind closed doors, etc.) to limit exposure, in both directions, between occupants and town employees (Dye Tester & Electrical Inspector).

Electrical requirement information sheet, (if any corrections are needed) will be left on site with property owner representative. Plumbing test results or corrections, (if needed) will be outlined in detail on a letter to follow, from the Plumbing Inspector.

Michael J. Murphy
Electrical Inspector
Code Enforcement Officer
