Parks & Recreation Department

Fun Facts about ALL water exercise classes:

- ◆ Aquatic Exercise can provide an immediate and beneficial impact on those with depression and anxiety
- ◆ **Word of the Month: Kinesthetic** - relating to a person's awareness of their position and movement of the parts of the body by means of sensory organs (proprioceptors) in the muscles and joints.
- ◆ Moving at slow speeds in water fosters an understanding of the movement's **kinesthetic** traits.
- ◆ Aquatic Exercise is appropriate for **ALL** age groups

**Class Descriptions**

**Aquarobics:** *Non-stop, very effective and guided body-toning movement using aquatic dumbbells and noodles. This class offers a peaceful, full-body workout including wall work and cool down. The intensity can easily be adjusted by each individual as one improves strength, flexibility, range of motion, coordination, balance and endurance. Join this class for a lighthearted, social start to the day.*

**Aqua Fusion:** *Aqua Fusion is a combination of water aerobics, Pilates, and dance designed to tone and strengthen the entire body. It emphasizes engaging the core to improve stability and balance.*

**Aqua Zumba:** *Fluid Latin dance water exercise that gets your heart rate up and keeps a smile on your face!*

**Gentle Watercise:** *This class provides an environment for our friends with joint problems and arthritis to participate in an exercise program that will work on maintaining flexibility, range of motion, endurance, strength, balance and coordination.*

**Dual Depth:** *This class is recommended for participants who are familiar with water exercise. It is formatted to allow participation in either the shallow or deep end of the pool, this core-centric class features segments of active movement designed to challenge cardio-respiratory endurance, muscular strength and joint mobility. PLEASE NOTE: Deep end participation provides for a zero-impact workout. The use of a floatation belt is required (provided).*

**HydroFit:** *Shallow water format designed to achieve or improve overall fitness. Traditional aquatic base moves, buoyancy and resistance lead to gains in cardio endurance, muscle strength and joint mobility. Get WATERproofed!*

**Deep Water:** *A sensational feeling! An intense non-stop core workout, with full-body movement in the deep end of the pool utilizing aquatic dumbbells and noodles as well as our own body's resistance. Flotation belts are worn around the waist removing the need to tread water while facilitating body movement.*

**Weekday Splash:** *A total body workout that can be customized to your ability. Moves including stretching, cardio and gentle resistance with noodles. For an extra challenge you can do the cardio with weights.*

**Sunday Splash:** *This class will be adjusted to accommodate the needs of all participants. Movements will be modeled on different levels of difficulty. A variety of cardio and strength exercises will be included.*

**Waterobics:** *An advanced program of at least 40 minutes of aerobics, followed by strengthening exercises. Resistance equipment will be used in this class!*

**High Intensity Waterobics with Cynthia:** *High energy aerobics that incorporate plyometrics, karate kicks, Tabata and wall work.*
